

Trustees' Report

IGI 2012 AGM

Trustees' Report

- Greetings!
- 2012 – consolidation and learning
- Vision of IGI
- Goals

Greetings!

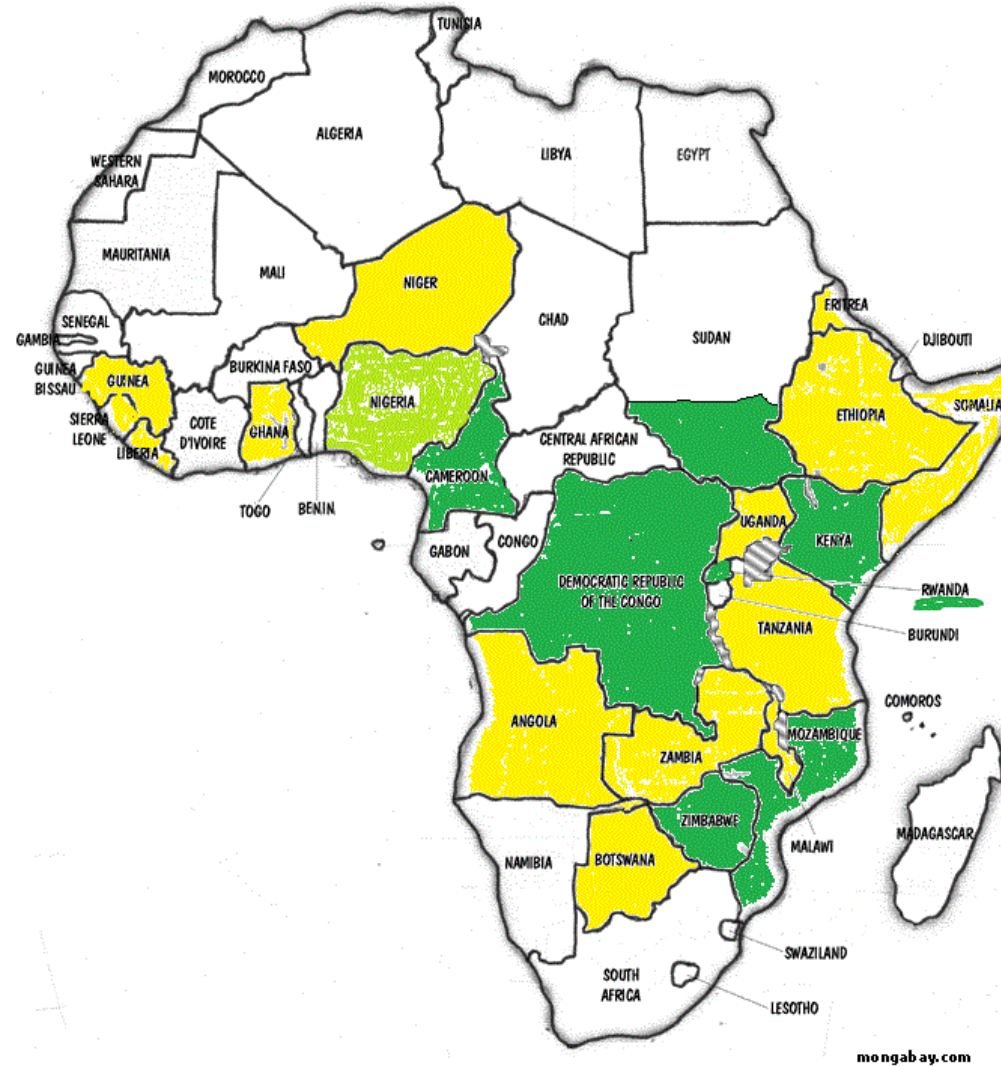

Consolidation and Learning

- Membership growth low – why?
- DRC – successful delivery of a significant funded project
- Cameroon – widening sphere
- Kenya – gained funding, but some setbacks and key lessons
- Rwanda – developing team and planning direction
- Nigeria – finally registered?

IGI countries in Africa

Corruption is headline news

- For many years corruption was ignored
- Gradually a weight of informed opinion grew – TI was born, codes were formulated,
- Awareness grew of its baleful impact on development
- Now it is being talked about everywhere
- Media report major scandals such as the trial of Berlusconi, Chirac, the Brazilian mensalão, Venezuela...
- Xi Jinping says it is one of China's biggest problems
- EITI is big news – global development agencies
- Christian organisations set up initiatives such as *Exposed*

CORRUPTION PERCEPTIONS INDEX 2011

[VIEW COUNTRY RESULTS](#)

Now is a unique moment...

- IGI is well placed to tackle corruption at grassroots level – where it really sits – to change the culture of our communities
- We are starting to build experience
- We should have more opportunities to win the funding we need for real projects
- IGI is uniquely a partnership between global North and Africa – Christ prayed for His Church to be one – St Paul started to make that a reality – in our day we can express that vision in this partnership

Goals

- What holds us back?
 - People to do the work
 - People to support
 - Funds
- How can we attract more members?
- How can we seek funding more efficiently?
- How can we spread IGI to other countries of Africa?
- Communication
- Sharing

“Unless the Lord builds the house,
the builders work in vain.”
