DRC

GLOBAL RESULT ON IGI WORK IN 2016

Dear IGI members, the DRC Team is happy to present to you its 2016 result. Even the weakness of resources, IGI try to continue to work by putting public authorities responsible of their mission and how they can become effectiveness. This year we have one great result that can become the important mission of IGI in DRC if funds is get.

ONE GREAT POINT ON 2016

We take the decision to open an office in Goma and start activities with the local government. This work consist to help the Officer Of Governance and Faigth Corruption initiate by the governor of North Kivu. It's looks important and strategical as the public authority reconized that corruption it's a reality.

To accompagnie this action looks as a good way to be present in North Kivu and start other kind of building integritiy in public duty.

HOW DOES IT WORK

- IGI Team take time to meet public authorities and tell them about it's mission and values. In this activity we discuss with local gouvernement team, justice service, and more with economic service.
- This work was realised with support of 2 expert: Mr **Leonard** and **Fidel**. Their ideas was very important and put IGI in credible poosition.
- We understand problem and report to authorities on how IGI can be a great partenar in North Kivu.

The Diagnostic OBLC service By IGI

An agreement was signed between local government and IGI to make a diagnostic of the Office of Governance and Fighting corruption as this Institution is called to support public authorities in their action on good practices. By realising this diagnostic, IGI was called to present a global report on Forces, Weakness, and opportunities of this office to become effectiveness.

Specifics action of OBLC diagnostic

- IGI make an organisational and functional check up of OBLC by reviewing legal text which create this institution.
- IGI identify the needs on strengthen capacity of the actor of that institution.
- IGI analyse the performance of OBLC from 2010 to 2015
- Field to others public services called to support OBLC mission

RESULT OF THE MISSION

- ❖ Needs on strainten capacite indentify.
- ❖ Opportunities, forces, weekness and others contraint analysed.
- ❖ Corrective measures knwed and proposed to governor by IGI.
- ❖ A Restitution and validation seminar must be organised in collaboration with all public service.

2017 PLAN

1. Extend the project on fighting corruption in universities area in Goma
2. Monitoring the election process which looks failed and make DRC subject of great conflict.
3. Getting funds from local government to become a technical service by training staff all all district of North Kivu.
4. Initiate a peace program as one of priorities in Eastern congo region.
